### 1. Introduction

---

---

At the end of the previous game, Larry traveled to the top of the volcano on Nontoonyt island to defeat Doctor Nonookee. In return for this, the chief of the village allowed Larry to marry his daughter, Kalalau. At the start of the third game in the series, Larry is standing on top of the volcano looking out at Nontoonyt, which has become a massive holiday resort. As he walks down the path to his house, he finds that Kalalau has left him for another woman, and so Larry explores the island looking once again for the woman of his dreams.

---

## 2. Walkthrough

---

### 2.1. Tawni

---

The game starts on the Vista Point on the Nontoonyt Island volcano. Use the arrow keys to move Larry to the left binoculars. Look in the binoculars to see a woman pulling down the shades in her house. The amount that the shades are pulled down depends on the amount of questions that were answered incorrectly in the quiz at the start of the game. Look at the plaque in the middle of the area to discover that it was dedicated to Larry when he saved the island from Dr. Nonookee. Exit the view of the plaque. Walk east to enter the jungle.

Take the north-west path to arrive outside Kalalau's house. She says that she has filed for divorce and tells Larry to leave. Walk east two screens to change into Leisure Suit Larry. Walk west one screen and get the granadilla wood under the tree near the bottom-right corner of the area. Take the north-west path to Kalalau's house to see that she has left the hot tub. Open the mailbox and get the credit card from inside. Walk east two screens, south-east and south-west to arrive outside the office. Enter the office to meet Chairman Kenneth, who not only fires Larry from his job but also bowls him out of his office.

Walk east one screen and north-east one screen to arrive outside the changing cabanas. Get a drink from the sink and then get the soap on the rope. Walk west one screen and south one screen to arrive at the beach. Look at Tawni and she will stand up. Talk to Tawni twice and she will say that she likes shopping. Give her the credit card and wait for the cutscene to finish. We now need to find some way of convincing Tawni that Larry is a souvenir vendor.

Walk west one screen and rub the ginsu knife on the steps to sharpen it. Walk north-west to the jungle and then walk to the top-right corner of the screen. There are two different paths that can be taken here. The north path leads to an office while the east path leads to the Chip 'N' Dale's club exterior. Take the east path and cut the grass using the sharpened ginsu knife. Walk east one screen and enter the Comedy Hut. Talk to Al at the bottom-left corner of the room and say anything to make him disappear. Sit on the chair at the middle table and watch the entire comedy show to receive extra points.

Stand up after the show has finished and exit the Comedy Hut. Walk west, south, south-east and north-east to return to the changing cabanas. Enter the left cabana. Weave the grass to make a grass skirt. Wear the skirt and carve the granadilla wood with the ginsu knife to make the erotic sculpture. Now Larry looks like the souvenir vendor that appeared on the beach earlier and he also has something to sell. Walk west and south to return to the beach. Larry will automatically walk up to Tawni to sell the erotic sculpture for twenty dollars.

---

## 2.2. Cherri

---

Walk north-east to return to the changing cabanas. Enter the left cabana and wear the leisure suit. Walk west and south to return to the beach. Tawni has gone but has left her towel on the beach. Get the towel and then use the towel to lie down. As soon the points are given, stand up to avoid being burnt by the sun. Walk west one screen and go up the steps to enter the hotel.

Walk north one screen and north-west one screen. Look in the mirror for two points and then continue west to the outer lobby. Give the ticket to the maitre 'd. He will ask Larry what number is on a page in the game manual. Enter the pass number shown on the page. He tells Larry that there are currently no seats available. Pay the maitre 'd and he says that a front row seat is available. Wait for the show to finish and Larry will return to the outer lobby. Walk to the middle of the room and Cherri Tart will leave backstage.

Look at Cherri and talk to her twice. She tells Larry that she would like to have a piece of land that she could build a farm on. Ask her about land and Larry will offer her a few acres of his land. Walk east twice, south twice, north-west and north on the north-east path to see the legal offices. Enter the building and ask the receptionist about land. He tells Larry that Ms. Cheatem will talk to Larry about land. Sit on the chair in her office and ask about land. She tells Larry that he is now the owner of a piece of Nontoonyt land.

Stand up and exit Suzi's office. Exit the building and then return to it. Ask the receptionist about the land deed. He tells Larry that the land is isolated. Exit the building and walk south and then south-east. Enter the hotel and walk north, north-west and west to return to the outer lobby. Knock on the door to enter backstage and wait for the scene to finish. In the dark, Cherri and Larry got their clothes mixed up and Larry walks on stage wearing Cherri's clothes. Larry will die of embarrassment something is done soon, so start dancing. Larry dances so well that the audience throws him five hundred dollars.

---

### 2.3. Bambi

---

Walk east twice, south twice, north-west and north one the north-east path to return to the legal offices. Enter the building and give the money to the receptionist. Wait for the scene to finish. She tells Larry to get the divorce papers from the receptionist. Exit the building and then return to it. Ask the receptionist about the divorce decree to get it. Exit the building and walk south and then south-east. Walk up the steps to enter the hotel. Walk north, north-west and west. Open the door. Walk behind the screen and wear the suit. Walk east three times and south twice to exit the hotel. Walk north-west and then take the south-west path to see the Fat City health spa. Enter Fat City.

The doors will only open to Fat City members so Larry needs a keycard. Look at the divorce decree to see that Suzi's membership card was in the decree. Use the card on the slot at the side of the left door to enter the locker room. Follow the path to the locker at the top-left corner of the room. Turn the spa keycard to see some Nontoonyt destinations written on the back. Each location represents a page in the game manual. Open the locker using the correct page numbers from the manual. Wear the sweats and close the locker. If you leave the room without closing the locker, everything will be stolen from it. Walk through the right doorway at the top of the room to enter the workout room.

The aim here is to use each of the four machines until a message congratulates Larry for pumping a certain amount of weight. The problem is that on faster computers, it can take a very long time for the message to appear. By far the easiest way to pass the section is to enter the "ascot backdrop" code, which will trigger the game debug mode after Larry moves to a new room. Exit the workout room and then return to it. With the debug mode now active, Larry only has to perform five repetitions on each machine in order to make the message appear. Then just type "ascot backdrop" again to exit the debug mode.

After completing the required number of repetitions on all four machines, wait for the scene to finish and then exit the workout room. Return to the top-left locker and open it. Remove the sweats and close the locker. Walk through the left doorway at the top of the room to enter the shower room. Walk to the top of the room and use the faucet to turn on the shower. Walk into the water and use the soap from the changing cabanas. Exit the shower room and return to the top-left locker again. Open the locker and use the towel and deodorant. Wear the suit and then exit the locker room. Use the keycard on the slot at the side of the top door to enter the aerobics studio. Look at Bambi and then talk to her to find out that she is working on an exercise video. Offer to help her with the video. Wait for the scene to finish and then exit Fat City.

#### 2.4. Patti

Walk east one screen and then walk east on the north-east path. Enter the cave and get the orchids on the right wall near the cave opening. Larry will die if he falls out of the cave so be careful not to get too close to the edge. Exit the cave and walk south and then walk south-east. Walk up the steps to enter the hotel. Walk north, north-east and east to enter the piano room. Weave the orchids into a lei. Sit on the chair nearest Patti and look at her. Give the divorce decree and the lei to Patti and then mention the penthouse when she asks what Larry wants to do. She gives Larry the key to her suite and tells him to come to the penthouse in a few minutes with a drink. Stand up.

Walk west twice and south twice to exit the hotel. Walk north-west one screen and then walk east on the north-east path. Walk east and enter the Comedy Hut to get the bottle of wine from the middle table. Exit the Comedy Hut and walk west, south and then south-east. Enter the hotel and walk east one screen to see the elevators. Push the button to enter the elevator. Go to the penthouse by using Patti's penthouse key in the lock. Walk to the table near the bed and pour the wine. Wait for the scene to finish and the game will switch to Patti.

---

## 2.5. Finding Larry

---

This half of the game involves Patti's quest to find Larry, who was last seen disappearing into the bamboo maze. Get the empty bottle on the table. Walk behind the dressing screen and wear the bra, dress, panties and pantyhose. Walk south to exit the penthouse. Press one in the elevator to go down to the hotel lobby. Walk west, north, north-east and east to return to the piano room. Get the magic marker from the tray below the announcement board and get the tips from the glass on the piano. Walk west twice and south twice to exit the hotel.

Walk north-east to arrive at the changing cabanas area. Fill the empty bottle with water from the sink. Walk west, north-west and east on the north-east path to see a doorman standing outside the Chip 'N' Dale's club. Give the tips from the piano room to the doorman to enter the club. Sit on the middle chair at the bottom table and the show will start. Throw the panties on the stage and then wait for the show to finish. Dale will eventually walk up to the table to talk to Patti. Look at Dale and then talk to him. Patti asks if he knows of any way to get through the bamboo maze that she saw Larry go into and Dale tells her that the answer can be found in the manual. Exit the conversation and stand up. Walk east twice, north-east and then north-west to enter the bamboo maze.

This lengthy bamboo maze only has one correct route to the exit, with the rest of the routes all leading to dead ends. Patti also needs to drink water from the bottle on the way through the maze so there is no time to take any wrong turns. Go north twice, east twice, north, west, north, east and north three times. By this point Patti will be slouching, so drink the water. Although it is safe to go a few more screens before doing this, Patti is over half way through the maze at this point so it is fine to drink the water. Now walk west twice, south, west twice, north twice, west and north to exit the bamboo maze.

Patti emerges from the maze in an area with a mountain stream. Drink the water from the stream but be careful not to get too close as Patti will be swept over the edge of the cliff. Walk north to the cliff edge. Remove the pantyhose and tie it to the rock. Patti climbs over the edge of the cliff and falls to a ledge far below. The path leading into the jungle on the other side of the cliff is our destination, but we need to get across there first. Climb up the right tree and get the coconuts at the top. Climb down from the tree and get the plants. Weave a rope out of the plants and then throw the rope to the rock on the other side of the canyon. If Patti now attempts to climb across the rope, she will fall off because she is not secured to the rope. Rip the dress and then climb across the rope to make it to the other side of the canyon.

Walk north-west to arrive at a junction. Stay at the left side of the path and walk north to see a pig. Don't get too close to the pig or it will kill Patti, so just stay at the left side of the path for now. Remove the bra and then put the coconuts in the bra. With the pig on the screen, throw the bra at the pig to knock it into the river. Walk north to the river edge. Walk to the grass at the left side of the area and enter the river. Move the log and then get on the log to start an arcade sequence where you have to avoid obstacles on the way down the stream. Just set the speed to a reasonable level and save frequently.

After making it down to the end of the stream, Patti gets caught in a net by two Amazonian women and is taken back to their village where she is reunited with Larry. Quickly use the magic marker and Patti will draw a magic door that they both escape through. Larry and Patti fall out of the game and arrive at the Sierra Studios where Police Quest is being filmed. Walk north to enter the prop storage room, where references to various Sierra games can be seen.

Walk east to the Space Quest set to start floating. Move to the machine at the bottom-right corner of the room and pull the plug when Patti is floating upside down to stop floating. Walk east to see Rosella being filmed for the whale tongue climbing scene in King's Quest IV. In the ending, Larry and Patti meet Roberta Williams and agree to write games for her based on Larry's life. Larry is seen programming and testing the first game in the Leisure Suit Larry series while Patti looks out across a lake from their house in the mountains.

## 8. **Easter Eggs and Secrets**

---

---

ONLY FIVE REPETITIONS REQUIRED IN THE GYM On faster computers, the number of repetitions needed on each of the machines in the Fat City gym can reach very high numbers. Fortunately, there is a way around this that doesn't involve emulators or saved games. Activate the debug mode by typing "ascot backdrop" while outside the gym. When Larry next enters the gym, he only has to perform five repetitions on each machine.

### SIERRA GAME REFERENCES

1. The game will be played at Mother Goose level if one question is answered correctly in the age quiz. This is a reference to Mixed-Up Mother Goose.

2. Try to gamble while in the mirror hall in the hotel. A message says that Larry did enough of that in his first adventure game.

3. Keep exiting and returning to the piano room in the hotel and eventually Roger Wilco from the Space Quest series will appear on one of the chairs.

4. If Patti eats the plants from the cliff ledge, she will see visions of Daventry, the land where some games in the King's Quest series are based.

5. Larry and Patti land on a set for Police Quest I in the Sierra Studios. The cameras are filming one of the driving sequences in the game.

6. The prop room in the Sierra Studios contains a tombstone marking the remains of the King's Quest IV programming staff, a taxi cab from Leisure Suit Larry I, suits that were worn in the Manhunter series, targets from Police Quest II and the insurance salesmen from Space Quest II.

7. A set for Space Quest II can be found in the Sierra Studios.

8. After Larry and Patti walk east after pulling the plug at the end of the game, Rosella from King's Quest IV can be seen climbing the whale tongue.

### SKIP THE AGE QUIZ

When asked to answer the first question at the age quiz, hold ctrl + alt + x to automatically answer all five questions correctly and skip to the game.
